a towel tablet is one of the coolest travel items girlawhirls ever seen

Nov 5, 2007

Just like those tiny animals that grew to 100 times their size when dropped into a bathtub that Girlawhirl remembers from her youth, she cant get over how what appears to be an oversized vitamin can transform itself into a washcloth-like towel ready for the task at hand...

Just for the sheer spectacle of watching TowTabs expand, Girlawhirls already gone through a roll of ten of them. She just sprinkles a few drops of water (1/2 oz is whats recommended) on the tablet, and there it goes. First it gets taller, and from there Girlawhirl can unroll it to its full size, about 8 by 10 inches.

Shes carrying them everywhere now, from her gym bag to her carry-on, and theyre right there in her top drawer at the office. If she happens to knock over a drink on her desk, its already absorbing the mess as it expands.

Girlawhirl first spotted TowTabs at an airport newsstand, but now she orders them in bulk 10 rolls of 10 online.
